

- Compatible with Locating Systems
- Equipped with External Braid
- Unique Dust-Proof Feature Efficiently Preventing False Alarms

Description

- The TTK sense cable FG-ACSB detects the presence of acids and water at any point along its length.
- The FG-ACSB sense cable connects to TTK's locating units (FG-NET, FG-SYS, FG-ALS8 & FG-ALS4) or non-locating units (FG-A), to respond immediately in the event of any leaks of acids, corrosive chemical liquids and water.
- The FG-ACSB sense cable is supplied with an external PVDF based braided jacket and is specially designed for pipes solution. (This can be held in place using a cable tie, if required.)
- The FG-ACSB sense cable can be reused after cleaning. It is recommended to install FG-ACSB in a dry and clean environment for an efficient detection.

Key Advantages

A RELIABLE SENSE CABLE

The FG-ACSB sense cable performs the following functions:

- Rapidly detects the leak of acids and water along the length of the cable.
- Detects leaks to the nearest metre when connected to a Locating Alarm Unit: FG-NET, FG-SYS, FG-ALS8 or FG-ALS4.
- Detects leaks when connected to a Non-locating Alarm Unit: FG-A.
- Detects any break or cut to the cable.
- Ingenious design: four sensing wires of helical construction, compressed and connected on an extruded central core, **efficiently prevent false alarms** that have been triggered by **dust and all kinds of conductive residue** from the environment that has accumulated on the cable surface.

A MODULAR SYSTEM

The FG-ACSB cable ensures permanent protection in areas at risk. FG-ACSB is available in standard and pre-finished lengths of 9, 22 and 49

ft (3, 7, 15 m). The sense cable is installed to provide the best possible protection in order to cover risks and limit the financial consequences of an undetected acids leak.

EASY INSTALLATION

A spliced junction with a length of 11.5 ft (3.5 m) of jumper cable and an end termination at each length of FG-ACSB sense cable give immediate connection to the unit or to the sector diversion box. Special fixing clips are used to fasten the sense cables in the chosen areas. A set of neutral jumper cables and pre-finished connection accessories gives continuity to each circuit with the sector diversion box FG-DTCS.

A TOUGH AND STURDY DESIGN

The FG-ACSB sense cable is a non-absorbent design that **can be reused** after cleaning, reducing the maintenance costs. It also offers a short drying time.

Technical Data

Compatibility	Locating units: FG-SYS, FG-NET, FG-BBOX (via Diversion Box: FG-DTCS, DCTL), FG-ALS8, FG-ALS4 Non-locating unit: FG-A
Reusability	Reusable, as long as the cable hasn't been damaged by prolonged immersion in liquid
Drying Time for Cable After Leak	Less than 10 secondes
Sense Cable Material & Nominal Diameter	PVDF, <0.48 in (12 mm)
Sensor Wires Material & Nominal Diameter	PVDF, 0.05 in (1.2 mm)
Braid Material	PVDF
Core Material	PVDF
Sense Cable Weight	6.05 lbs / 100 ft (9 kg / 100 m)
Minimum Bend Radius	0.79 in (20 mm)
Sense Cable Color	Dark green khaki
Operating Temperature	-40° to 185°F [-40° to 85°C]
Ingress Protection	IP 67

Product Diagram

Unique Dust-Proof Feature Efficiently Preventing False Alarms

- A black non-conductive wire containing a unique buried conductive constantan wire, concealed beneath the cable surface, designed to detect the ingress of acids, chemical liquids, or water.

(without External Braid)

Identification Codes

FG-ACSB3	Sector Acids Sense Cable in 9 ft (3 m) with External Braid
FG-ACSB7	Sector Acids Sense Cable in 22 ft (7 m) with External Braid
FG-ACSB15	Sector Acids Sense Cable in 49 ft (15 m) with External Braid
Accessories:	
FG-DTCS	Addressable Box
CF-EC100	100 Hold-down Clips with Adhesive
ES-EC	40 Signal Tags

Certification

FG-ACSB sense cable is compliant to NFPA 262 (known also as UL910). NFPA: National Fire Protection Association
All TTK sense cables are designed as a part of the leak detection system and were used for the approval certification for TTK monitoring panels.

- FG-NET and FG-SYS are UL Listed.
- FG-NET system is certified FM7745.
